In addition to meeting the basic requirement above, to qualify for this position you must also meet the qualification requirements listed below:

Specialized Experience for GS-13: One year of specialized experience which includes: experience in the planning, coordination, evaluation and review of all phases of project control, including the interpretation of and compliance with criteria, regulations, policies, and procedures, design and construction authorization and directives, availability and proper application of funds, and coordination of changes and additions on assigned programs and projects. This definition of specialized experience is typical of work performed at the next lower grade/level position in the federal service (GS-12).

Some federal jobs allow you to substitute your education for the required experience in order to qualify. For this job, you must meet the qualification requirement using experience alone--no substitution of education for experience is permitted.

Responsibilities/Duties: Serves as project manager and subject matter expert responsible for executing the mission of the Ordnance and Explosive Design Center, including identifying the scope and extent of environmental investigations, analysis, and design to include planning and leading the in-house and contractor product delivery team (PDT) through the execution of ordnance projects including site inspections, remedial investigations, feasibility studies, proposed plan development, records of decision, remedial design, remedial actions, and site closeout.

- Represents the Center, serving as a point-of-contact with the customer, state and local government agencies, and other external organizations.

- Coordinates and integrates a multidiscipline Product Delivery Team including ordnance and explosives safety, environmental engineering, geophysics, cost-engineering, real estate, contracting, etc.
- Manages ordnance and explosives investigation and remediation project schedules and budgets.
- Utilize performance trends to forecast schedule, budget, manpower, or quality problems, ensures proper resolution of issues raised.
- Responsible for leading the project delivery team in the acquisition and contract administration of environmental service contracts.

Conditions of Employment:

- 1) Must meet suitability for Federal employment.
- 2) Will be required to provide proof of U.S. Citizenship.
- 3) Male applicants born after December 31, 1959 must complete a Pre-employment Certification-Statement for Selective Service Registration.
- 4) Position may require incumbent to obtain and maintain Secret security clearance.
- 5) Will be required to serve a 2-year probationary period.
- 6) This is a Career Program (CP) 18 position.
- 7) Reasonable accommodation is available to qualified employees with disabilities.
- 8) COVID-19 Vaccination Requirement: To ensure compliance with an applicable nationwide preliminary injunction, which may be supplemented, modified, or vacated, depending on the course of ongoing litigation, the Federal Government will take no action to implement or enforce the COVID-19 vaccination requirement pursuant to Executive Order 14043 on Requiring Coronavirus Disease 2019 Vaccination for Federal Employees.
 - Shared Vaccination status of selected applicant(s) for the purposes of implementing other workplace safety protocols, such as protocols related to masking, physical distancing, testing, travel, and quarantine will apply.
